

EXTENDED TRADING HOURS

We seek your help to send a clear message to our politicians that a majority of Perth people want to be able to shop after 6pm on weeknights.

We must send a clear message to the Labor and National parties that they have made a mistake by blocking plans to extend weeknight trading hours to 9pm.

The people of Perth want choice, competition and lower prices at the checkout.

It should not be up to politicians to decide where and when we can shop.

The time has come for Perth people who want extended weeknight trading hours, to stand up and be counted by contacting their local Member of Parliament and urge them to support legislation to allow our shops to remain open until 9pm if they choose.

If you want more choice in where and when you can shop, help create hundreds of new jobs, and drive prices lower at the checkout, we urge you to ring you local Member of Parliament, or visit www.choiceatthecheckout.com.au to voice your support for extended weeknight shopping hours.

Please let your friends and family know of the need to extend retail trading hours in Perth, and we encourage you to use your contact lists to circulate this email.

It's time for the people of Perth to stand up and be counted.
